

REMARKS/ARGUMENTS

The above amendments to the specification and drawings correct discrepancies applicant noted between Fig. 10 of the application and the specification text. Specifically, the applicant noted that the link 117 from VPN 54 of player 20 to the Internet 160 was incorrectly referenced as 119 in para. [0120] and as 114 in para. [0138] and was omitted in para. [0161]. Applicant further noted that the reference numbers for the Internet 160 and Internet content provider 162 were omitted in paras. [0120], [0128], [0166] and [0176]. The above amendments correct and insert these references.

No new matter is added, as Fig. 10 shows "VPN to Internet 54" with link 117 to Internet 160, in turn linked to "Internet Content Provider 162".

Entry of this Preliminary Amendment fee is respectfully requested.
